ALTHURAYA 

Our Water

Al Thuraya Water comes from the depths of two Artesian Wells located in the mouth of Dhank Valley in an estate of 5000 Square Meters Our natural water source produces water with an average TDS of 470 before treatment or filtration

● Natural

Our Artesian wells water is considered a valuable natural resource due to its purity and balanced mineral content

● Pure

Low TDS with an average of 470 ppm before treatment and 110 ppm after

● Cost efficient

Because of the low TDS and the mineral-rich wells, our production costs are significantly lower compared to our competitors

● Volume

Our balanced extraction rate and the geo-location of the well ensure a sustainable lifespan of the wells

Our factory has two production lines: 5 Gallon Filling Production Line and 200ML Cups Production Line. Our Factory premises includes: the main production plant, loading & unloading area, storage room, accommodation and the premises garden.
